

7/16" Thick Recessed Grille Mats

7/16" Recessed Grille Mats offer high-impact, vinyl/acrylic tread rails combined with aluminum hinge connectors. The vinyl rails greatly reduce clattering and thus provide for extra quiet performance compared to competitor's products. This recessed metal mat is lighter in weight than traditional all-aluminum mats and can be installed as either a recessed mat or a surface-mount mat.

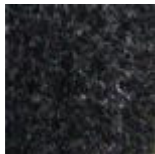

- These recessed grill mats are designed to allow dirt and debris to fall through mat instead of remaining on the surface.
- Recessed Mats roll back and can easily removed for easy recess cleaning.
- The variety of insert and aluminum finish options offers an aesthetically pleasing metal mat that effectively removes dirt, debris and moisture. Insert materials include heavy-duty carpet, corrugated vinyl and abrasive carbide grits.
- Replacement insert strips are also available.
- Able to fill recesses between 3/8" and 7/16" deep.
- 300 lbs rolling load capacity per wheel.
