

## Anti-Static Chair Mats

Our Anti-Static Chair Mats help both protect people and sensitive equipment (ie, computers, printers, copiers, servers) from electrical surges that may arise while using electronic equipment. Please note that these desk mats do NOT protect against a static discharge when stepping on the mat after walking around (these mats will only help prevent charges from being built up once on the mat).

- LIFETIME WARRANTY on all Anti-Static Mats against cracks due to normal wear and tear.
- Anti-Static Desk Mats are 1/7" (0.145" or 145 mil) thick and can perform well on any carpeted floor.
- A "Lip" is defined as a tongue that extends from one edge of the mat. The lip protects the floor under the desk where the chair may roll if scooted all the way in.
- Chair Mats having a Lip are listed using the overall size of the mat (and include the lip; therefore, the rectangular portion of the mat is smaller than the overall size listed below).
