

## Bathroom Toilet Mats

Toilet mats are the answer to slippery, foul-smelling floors beneath commodes.

Restroom stalls are rarely cleaned during their most heavily-used hours, which may allow the floor surrounding the toilet to become wet. Bathroom toilet mats address this problem directly.

- Both urine and leaking water can cause slippery surfaces and foul odors. These toilet mats provide traction and a dry surface for patrons to comfortably stand on without fear of slipping or having their shoes absorb liquids.
- Urine can often cause tile floors to erode; these restroom mats have an anti-microbial agent that helps prevent any erosion from occurring.
- Dimensions: 21" x 24"
