

Garage Floor Pressure Sensitive Adhesive

Garage Floor Adhesive is an easily applied, pressure-sensitive adhesive designed for use with Garage Floor Roll Matting. This adhesive may be used over most structurally sound, moisture-free interior subfloors.

- Adhesive tape is not necessary when using this adhesive.
- Simply clean your garage floor and apply this adhesive with a paint roller. Lay down your new garage floor mat (Adhesive is ready to apply to floor when it turns clear and tacky to the touch).

Standard Adhesive

- 1 gallon pail covers approximately 200 to 400 SqFt.
- 4 gallon bucket covers approximately 800 to 1600 SqFt.

Outdoor adhesive is recommended for exterior locations where garage flooring is exposed directly to the elements as well as partial-exposure locations such as car ports.

Outdoor Marine Adhesive

- 1 gallon pail covers approximately 100 to 300 SqFt.
- 4 gallon bucket covers approximately 300 to 900 SqFt.

Item No: GRFLPSA

Standard Sizes (Approximate)

Size	Pricing
