

## Happy Feet Anti-Fatigue Mats

Happy Feet Comfort Mats combine a penetration-free, solid nitrile rubber outer layer with a dense rubber cushion core. This provides for a uniquely versatile anti-fatigue mat with several surface texture and border options.

Happy Feet Mats offer two heavy-duty surface patterns: the textured surface and the grip surface for added traction.

- These anti-fatigue mats are available either as individual, stand-alone mats with beveled edges on all 4 sides or as linkable mats that connect together.
- Happy Feet are ideal for wet and dry environments, are static-dissipative, grease-proof and welding safe.
- Grippers on the backside help minimize floor mat movement on any surface.
- Available 1/2" thick.
- Available in black and OSHA-approved striped border colors including red, orange, yellow and green.
- Environmental Green Rating: 20% Recycled Content

Item No: FHFAM
