

## Rubber Scraper Floor Tiles

Rubber Scraper Floor Tiles provide a heavy-duty first line of defense for large entrances, vestibules and other areas with a stand alone entrance mat would not provide full coverage.

- 100% Nitrile rubber construction (20% recycled content) for years of use even in the most demanding locations. UV-resistant and anti-static.
- Extremely aggressive at scraping shoes clean of all grit, grime and water. The parquet pattern with molded bi-level surface effectively removes and stores dirt and sand beneath shoe level so it cannot enter the building
- Overall thickness is 1/4".
- Each glue-down tile is 18" x 18".
- 12 tiles per box (27.0 total sqft).
- These floor mat tiles are easy to clean: simply use vacuum, extraction cleaning methods, or hose off if outdoors.
