

Treadline 7/16" Recessed Grille Mat

The Treadline Grille Mat is a 7/16" deep entrance mat that, depending upon frame style chosen, can be either surface or recessed mounted. Its combination of acrylic/vinyl rails, either in black or brown, and heavy-duty connectors reduce noise generated with similar aluminum mats. The variety of insert and aluminum finish options offers an aesthetically pleasing product that effectively removes dirt. These mats are capable of handling 300lb per wheel loads.

- Combination vinyl/acrylic rails and aluminum hinge connectors offer maximum performance in high traffic entrances
- 7/16" deep tread rails design allows dirt to fall through mat instead of remaining on surface
- Mat rolls back for easy cleaning
- Dual durometer cushion allows for quiet operation
