

Treadline Recessed Grille Mats

Treadline Recessed Grate Mats offer strong vinyl/acrylic rails, available in either brown or black, connected with heavy-duty hinge connectors. The dual durometer cushioning greatly reduce clattering and thus provide for extra quiet performance compared to competitor's products.

- This recessed metal mat is the lightest weight compared to all other all-aluminum mats and can be installed as either a recessed mat or a surface-mount mat.
- Treadline grill mats are designed to allow dirt and debris to fall through mat instead of remaining on the surface.
- These grate mats roll back and can easily removed for easy recess cleaning.
- The variety of insert and rail finish options offers an aesthetically pleasing mat that effectively removes dirt, debris and moisture. Insert materials include heavy-duty carpet and corrugated vinyl.
- Replacement insert strips are also available.
- Able to fill recesses between 3/8" and 7/16" deep.
- 300 lbs rolling load capacity per wheel.
