

## Clear Vinyl Runner Mats for Hard Floor Surfaces

Clear Vinyl Runner Mats for Hard Floors help protect hard surfaces such as tile, marble, wood and concrete while providing increased traction and allowing the floor's design and colors to show through.

- The **Commercial-Grade** Floor Mat Runner is a softer vinyl best suited for moderate-heavy traffic areas which are routinely maintained and where no heavy objects are rolled across and there is smooth flooring underneath.
- The **Rigid-Grade** Floor Mat Runner is ideal for high-traffic locations with frequent passage of carts, dollies, wheelchairs or other items with rollers.
- 100% vinyl floor mats - 1/8" thick up to 50' long
- Clear runner mats are often used in entryways, interior corridors and frequently traveled pathways.

Item No: VCLVRHS
