## Dog Bowl Floor Mats

Our Dog Bowl Floor Mats are the perfect solution for placement under dog and cat bowls to catch overflowing pet food and water, which helps keep the floor clean, dry and free of food and water.

- Dog Bowl Mats have a smooth surface design, which is easy to keep clean. The surface is made from polypropylene, which dries quickly, is stain and mildew resistant will not fade or rot.
- A commercial-grade rubber backing helps hold the dog bowl mat (and thus the bowls) in place regardless of what type of floor the mat is placed on. The rubber won't degrade or deteriorate, even with constant use from multiple pets.
- Dog bowl floor mats feature a water dam border around the perimeter that prevents food and especially liquids from running off the sides of the mat and onto the surrounding floor, keeping things safe and tidy.
- Easily clean these dog bowl mats by shaking them out, vacuuming, washing off or, for a deeper cleaning, hosing off and air drying as needed.
- Dog Bowl Mats have 20% recycled content.
