

## Drainage Rubber Matting Tiles

Drainage Rubber Matting Tiles are heavy-duty, durable rubber mats, which provide excellent traction, comfort and drainage and can be configured to fit virtually any layout.

- The raised surface design works hard to scrape shoes clean while dirt and debris are held within the trenches of these rubber floor mat tiles and moisture flows out through the drainage holes.
- Constructed of 100% skid-resistant Nitrile rubber making these floor mats oil, petroleum and grease proof.
- These drainage mat tiles are anti-bacterial treated to guard against degradation from micro-organisms and minimizes the mats from being a source of odors.
- These rubber floor mats are easy to clean. Simply sweep, hose off and hang dry or wash them in a commercial laundry machine or dishwasher.
- 9/16" Thick: these mats provide excellent anti-fatigue properties for added comfort and improved ergonomics.
- Each tile is 18" x 18" OR 36" x 36" and available as a center (inside) tile, a corner tile and border tile for perimeter use.

**Standard Sizes (Approximate)**

<b>Size</b>	<b>Qty. 1-50</b>	<b>Qty. 51-100</b>	<b>Qty. 101-250</b>	<b>Qty. 251-500</b>
