

## Dri-Dek Drainage Tiles

Dri-Dek Drainage Tiles are 1' x 1' floor tiles that are ideal in wet environments, as they help increase traction to decrease slip and fall accidents all while helping keep walkways safe and dry.

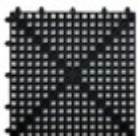

- Dri-Dek Tiles tiles easily connect together and are great for standard shaped areas as well as custom sized and shaped layouts. Plus, these tiles are easy to trim.
- Each interlocking dri-dek tile is 12" x 12" and 9/16" thick.
- Beveled borders and beveled corners are also available.
- Dri-dek tiles not only dry fast but have a textured, slip-resistant top surface.
- Ideal for use in locker rooms, pools, saunas, kennels, boats, fire engine compartments and in any wet environment where traction, safety and aeration are all high priorities.

Item No: PDDDM
