

Economy SoftCarpets Interlocking Tiles

These interlocking puzzle tiles are economical, safe and can be assembled quickly and easily to provide a finished, carpeted floor.

Soft Carpets Tiles are made from EVA foam, which gives these tiles compressibility.

Our interlocking tiles are non-toxic, waterproof, impact absorbent, insulating, fire-retardant & help soundproofing.

These puzzle mats are made for light, indoor use only.

- 1/2" Thick - Each tile is 2' x 2' (4 sq. ft total) or ONLY \$2.78 per sqft!

Each tile comes with 2 attachable borders to create finished edges regardless of configuration.

Note: there is a 8 tile minimum order for this product.

Perfect for: play areas, sound control, exhibits, small offices & light retail

Economy SoftCarpet's surface and bonding show more wear and tear after a shorter period of time whereas the premium version show minimal wear and tear after many years of use. Additionally, the Economy Softcarpet's surface fibers (knapp) are much shorter and therefore more easily compress giving the appearance of different color variations throughout when, in fact, every tile is made from the same production run/dye lot. The Premium SoftCarpets have longer fibers (knapp) will always lay in the same direction and have a uniform color throughout.

Item No: GESCIT
