

ErgoDeck ESD Anti-Fatigue Mats

ErgoDeck ESD ergonomic flooring consists of static dissipative interlocking tiles that help protect sensitive electronic equipment from static discharge while providing a comfortable, configurable flooring solution.

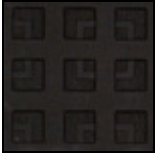

Made of a proprietary TPO/Carbon blend, the ESD properties of ErgoDeck ESD tiles are present throughout the entire tile. (No snaps or additional grounding is necessary when used over conductive flooring.)

- The LockSafe interlocking system allows these ergonomic tiles to easily snap together like puzzle. Ergodeck Smooth tiles can easily disconnect and be replaced.
- Tiles are 18" x 18" x 7/8" Thick and can hold up to 300 lbs.
- 6" beveled safety ramps allow easy on-and-off access; inside and outside corners ramps are also available.
- Made of carbon-impregnated PVC (85% recycled content).
- Customize in 3" increments to fit any area or configuration.
- Limited Lifetime Warranty against defects in material.

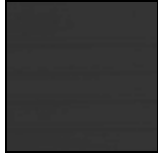

Item No: FERGESD

Size	Qty. 1-50	Qty. 51-100	Qty. 101-250
