

Heavy-Duty Beveled Nosing

Heavy-Duty Beveled Nosing is applied to carpet mats that are cut onsite and require a stronger-than-average border. These beveled edges help provide a safe walking surface so as not to have a tripping hazard and making the mats ADA-Compliant.

- Nosing lip is adhered underneath mat and produces a 1" beveled border extending from the side of the mat.
- Overall thickness: 1/8"
- Full rolls and custom cut lengths are available.

Also Available:

Adhesive: 16oz can with brush top applicator; or 5oz tube.

Roller: Application roller to press nosing strip into adhesive on mat.

Nosing Kit: includes 25' of nosing, 5oz tube of adhesive and 1 application roller.

Item No: AHDBN
