

Miners Moss Prospecting Mats

Miners Moss Prospecting Mats are made with an extruded vinyl mesh arranged in a random loop (spaghetti) pattern. These miner moss mats help remove debris and work great for gold recovery in any sluicing or dredging operation.

- Miners Moss Mesh Mats are preferred by commercial dredgers since these mats trap and hold gold inside the vinyl loops. These prospecting mats catch and hold fine gold and heavy black sands.
- Miner's moss is available in a variety of sizes and colors.
- Miners moss sluice carpet is un-backed, which allows this 1/4" thick vinyl mesh matting to drain easily and helps wash concentrates out of the carpet.
- To clean miner's moss mats, simply shake out or hose off.
