

Parquet Wiper Rubber Mats

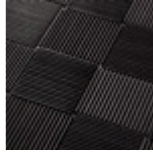

Parquet Wiper Rubber Mats are hard working, heavy-duty rubber door mats, designed with a multi-directional surface to scrape dirt and debris and wipe moisture from shoes regardless of the walking direction.

- The alternating rows of rubber ribs on the floor mat's surface provide enhanced wiping and scraping.
- Dirt and water is held within the trenches for better dirt and moisture retention in the wells of the mat (and off the floor).
- Parquet Wiper Mats are made from a slip-resistant rubber, and these door mats are certified by the National Floor Safety Institute (NFSI). Beveled edges provide a safe transition on and off the mat.
- These wiper scraper mats hold twice as much water as comparable scraper mats and designed for high-traffic, outdoor areas.
- To clean these rubber door mats, simply shake or hose off.
