

Personalized Coco Door Mats

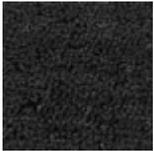

Personalized Coco Door Mats are coarse door mats made from coconut husk fibers and detailed with your family or business name. The coco fibers function like brush bristles to scrape and clean shoes. Your name is dyed into the mat for long-wearing durability yet these personalized coco mats remain tough on dirt and moisture.

- 1" thick pile helps to trap & hold dirt below the surface to help prevent debris from being tracked inside.
- Available with and without the matching color border.
- Personalized coco mats demonstrate your commitment to the environment since these door mats come from natural, renewable components.
- Ideal for light-moderate traffic, indoor & outdoor locations.
- Up to 15 characters (including letters and numbers) can be included on these personalized mats. All text is displayed in Georgia Font.
