

Play-Soft Interlocking Foam Tiles

Play-Soft Interlocking Foam Tiles are a soft, safe foam flooring ideal for infants, toddlers and young kids. These colorful puzzle tiles feature the ABC's and 123's for interactive learning and play. Made from premium 100% EVA foam, these foam puzzle tiles are completely safe for children of any age.

These 1/2" thick puzzle tiles measure 1' x 1' and easily lock together to form the finished mat. Three different size configurations available. All perimeter tiles are finished with straight cut edges.

These interlocking foam tiles are ideal for home, school and daycare facility usage due to their lightweight and portable nature, yet they are strong enough for continuous crawling, walking and tumbling. Additionally, PlaySoft Puzzle Tiles are also waterproof, soundproof, shock absorbent and fun for kids of all ages.
