

Safety Grip Grit Tape – Slogans

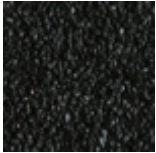

Slogan Safety Grip Grit Tape pads alert people of potential safety hazards while increasing traction on ramps, stairs, ladders, loading docks and anywhere additional friction is necessary. Grip Tape adheres to virtually any clean, dry surface (wood, metal, concrete, etc.).

- Slogan Safety Grip Tape Pads easily stick to virtually any surface - simply peel off the protective back and stick the tape to the desired surface.
- This grit tape's surface layer is infused with commercial-grade, silicone carbide particles. As these particles wear away, they continually chip into finer, aggressive particles that continue to provide traction.
- 46 Grit for all designs and colors.
- For grip tapes exposed to water, grease or oil, an optional edge sealing compound is recommended. This adhesive is available in a 5oz tube and can cover up to 100 LF of tread.
- Custom shapes and messages are available.
