

Dual-Wheel Soft Casters for Desk Chairs

Soft, Dual-Wheel Desk Chair Casters are replacement chair wheels that are specifically designed for use on any type of office chair mat to help protect the mat, increase ease of motion and ensure that warranties are honored.

Having the appropriate casters on the bottom of your desk chair will ensure that the desk chair mat lasts longer while helping to prevent dimpling.

These dual wheel casters help distribute the weight better than a traditional hard ball or metal wheel, which can put extreme pressure on the chair mat. Furthermore, these soft wheel casters prevent wear due to gouges, which can appear on hard balls and metal wheels.

Universal caster stems are also available as needed for replacement wheels.
