

Teebaud Non-Skid Mat Underlayment

Teebaud Non-Skid Mat Underlayment helps keep floor mats in place with its dual-adhesive construction (this pad is sticky on both sides).

- Teebaud Underlayments can be used on both **carpet and hard floors**, such as wood, tile or marble.
- The teebaud product is **not** recommended for locations where the mats will be moved or picked up frequently.
- This product works equally well on both **gripper- (cleated-) backed and smooth-backed mats**.
- Simply apply as many pieces as needed, side-by-side for larger mats. Taping or splicing is not necessary.
- Place the white side face down (facing carpeted flooring). Then place the mat on top of gray side (facing up). Do the opposite for hard floors.
- Teebaud allows the pad and the underside of the mat to breathe with no risk of oxidation or discoloration to any flooring surface.
