

Vinyl Mesh Heavy-Duty Pool Mats

Vinyl Mesh Heavy-Duty Pool Mats are constructed from a 7/16" thick commercial grade extruded vinyl patterned in a random loop design. These spaghetti mats help remove moisture from the walking surface to help reduce slips and falls.

- These pool mats are available with a solid backing and border for increased wear and durability.
- Also available without any backing or borders for use in locations with excessive water drainage such as in hot tubs, pools and shower areas.

NOTE: All standard size mats are available with or without the backing and edging. All custom sized mats are not available with edging but come with or without backing.

- Ideal for moderate traffic, inside/outside locations.
- To clean these mats, simply shake out or hose off.

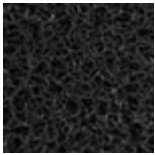

Item No: PVMHD
