

## Washboard Tile Drainage Matting

Washboard Drainage Tiles are heavy-duty, interlocking drainage tiles which can be easily configured for standard and custom-shaped areas.

The tile's surface scrapes shoes clean, allows moisture to drain and provides a safe, slip-resistant walking surface.

- Heavy-Duty construction: 12" x 12" x 1/2" thick.
- Also available in a 1/4" thick low-profile style.
- Used in surface-mounted and recessed applications alike.
- Beveled ramps available either 12"L x 2"D or 12"L x 6"D for added safety.
